RE: Donation of binders and filing supplies to Hannah Caldwell Elementary School

It is with great pleasure that the TelecomPioneers, Chapter 99 can make a donation to the Hannah Caldwell Elementary School (care of Mrs. Laurie Roof) of 100 binders, 100 hanging files, and 100 file folders. Thanks, in great part, to the generosity of Ericsson, who while cleaning out their Piscataway, NJ facility has made these supplies available to the Pioneers, we are able to donate them to schools and non-profit agencies.

This donation represents our combined commitment to reducing waste and recycling materials, but also to fulfilling the needs of those in our communities who are in great need of these materials. We are sure that these materials can be well used by both your faculty and students. Please also stay in touch with us as more materials may become available over the summer months and into the fall.

Chapter 99 Pioneers is comprised of former and active employees of Ericsson (USA), (formerly Telecordia), and is based in Piscataway, NJ. We are part of the International (USA and Canada) network of over 80 Pioneer Chapters representing over 600,000 members. Our Chapter members raise our own funds and focus on community service projects in Essex, Union, Morris, Middlesex, Somerset, Hunterdon, and Monmouth counties in New Jersey, as well as responding to major disasters wherever they may happen. We fund or support over 50 annual projects involving Educational, Environmental and Life Enrichment programs. We truly support the theme of our association to "Answer the Call of Those in Need".

Jacqueline Gunn, Chapter Manager
TelecomPioneers, Chapter 99
