INTRODUCTORY SECTION

Township of Union Public Schools

Gregory A. Tatum
Superintendent

October 31, 2014

Honorable President and Members of
The Board of Education of the
Township of Union
2369 Morris Avenue
Union, New Jersey 07083

Dear Board Members:

The comprehensive annual financial report of the Township of Union School District (the "District") for the fiscal year ended June 30, 2014, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Township of Union Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the district. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the management's discussion and analysis, general-purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget Circular A-133, "Audits of State, Local Governments and Non-Profit Organizations," and the state Treasury Circular Letter 04-04 NJOMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations are included in the single audit section of this report.

Honorable President and Members of
The Board of Education of the Township of Union

1. REPORTING ENTITY AND ITS SERVICES: The Township of Union School District is an independent reporting entity within the criteria adopted by the Financial Accounting Standard Board ("FASB") as established by Governmental Accounting Standard Board ("GASB") in codification section 2100. All funds and account groups of the District are included in this report. The Township of Union School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels Pre-Kindergarten through twelve as well as education for children with special needs grades Pre-School through twelve. The District completed the 2013-2014 fiscal year with an enrollment of 7491.4 students, which is a decrease of 1.3 students from the previous year's enrollment. The following details the changes in the average student enrollment of the District over the last ten years.

AVERAGE DAILY ENROLLMENT

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2013-2014	7491.4	-0.02%
2012-2013	7492.7	-0.24%
2011-2012	7510.7	-2.48%
2010-2011	7702.0	-0.76%
2009-2010	7760.7	-1.54%
2008-2009	7882.3	-.13%
2007-2008	7892.9	-.32%
2006-2007	7918.3	-.71%
2005-2006	7975.3	+.15%
2004-2005	7963.6	-.07%

2. ECONOMIC CONDITION AND OUTLOOK - The Township of Union continues to reflect the economic conditions of the state and country as a whole. Residential, commercial and industrial property values are beginning to increase and foreclosures have leveled off. There are two major residential developments in the Township in the planning stages which will further improve the economic conditions in the Township. The major commercial tax appeals have leveled off. Union Station and

Honorable President and Members of
The Board of Education of the Township of Union

the surrounding area continue to demonstrate great economic. The Township remains well positioned for the impending economic growth.

3. MAJOR INITIATIVES - Initiative One- During the 2014-2015 school year the Township of Union Public Schools is initiating a human resource recruitment and retainment initiative for district faculty and staff. The Director of Human Resources will begin the process of establishing relationships between colleges and universities in order to recruit a large base of diverse candidates to instruct district students. In addition, the district will focus on reviewing the individual building needs that are related to student outcome, as well as faculty surveys on targeted professional development. Faculty workshops will be placed on the Teachscape system and tie professional development workshops to identified student and faculty needs.

Initiative Two- The Township of Union Public Schools second initiative is to audit the technology department infrastructure in order to establish the needs of the district in terms of technology upgrades and installations. As the district continues to increase the number of computers throughout the schools, the concerns of the ability for the system to handle the increase has become a focus of the technology department. Additionally, the move towards storing district information from standard servers "The Cloud" is also an area the district is moving towards during the school year.

Initiative Three- The Township of Union Public Schools third initiative is the analysis of district security needs. Over the past number of years additional security cameras have been placed throughout the district inside and outside the facilities. In addition, the district is focusing on reviewing the needs for additional security officers and various secondary levels of secure entry. Vestibule waiting areas and various methods of monitoring the doors located throughout the school buildings are also being reviewed by the Director of Security and building principals.

Initiative Four- The Township of Union Public Schools fourth initiative is the implementation of keyboarding and PARCC testing skills in preparation of the state mandated standardized testing. Students in elementary schools will begin each computer class with a keyboarding program followed by general computer skills, the middle school students

Honorable President and Members of
The Board of Education of the Township of Union

will begin 6th grade with a keyboarding cycle followed by general computer class with curriculum infused skills computer class with curriculum infused skills required for the PARCC assessment. All teachers have attended professional development on the PARCC assessment and are continuing to design assessments that align with the style of questions provided as samples from the Pearson PARCC website.

4. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

5. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital project fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

6. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principals, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

Honorable President and Members of
The Board of Education of the Township of Union

7. DEBT ADMINISTRATION: The District passed a \$23.4 million dollar bond referendum on April 20, 2010, in order to demolish and reconstruct a major portion of Jefferson School and renovate the remaining portion of the school. Jefferson School reopened on September 1, 2013 for the 2013-2014 school year. Information related to the District's outstanding debt is recorded in the long-term debt schedules of the comprehensive annual financial report. Debt refundings are done when economically feasible and/or required by regulation.

8. CASH MANAGEMENT: The investment policy of the district is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The District has adopted a cash management plan, which requires it to deposit public Government Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the act.

9. RISK MANAGEMENT: The District carries various forms of insurance, including but not limited to general liability, excess liability, errors and omissions, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

10. OTHER INFORMATION: Independent Audit – State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Suplee, Clooney & Company, CPAs was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendment of 1996 and the related OMB Circular A-133 and State Treasury Circular Letter 04-04 NJOMB.

Honorable President and Members of
The Board of Education of the Township of Union

The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit section of this report.

11. ACKNOWLEDGEMENTS: We would like to express our appreciation to the members of the Township of Union Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our staff.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Township of Union
County of Union
Union, New Jersey 07083

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Union School District, County of Union, New Jersey as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey, the provisions of U.S. Office of Management and Budget (OMB) *Circular A-133* "Audits of States, Local Governments and Non-Profit Organizations" and State of New Jersey *OMB Circular 04-04* "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." Those standards and provisions require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

SUPLEE, CLOONEY & COMPANY

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Township of Union School District, County of Union, New Jersey as of June 30, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and budgetary comparison information in Exhibit C-1 through C-3 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Union School District's basic financial statements. The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular NJOMB 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information schedules such as the combining and individual fund financial statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Nonprofit Organization," New Jersey's OMB Circular NJOMB 04-04, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The other information, such as the introductory and statistical sections, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated October 31, 2014 on our consideration of the Township of Union School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Township of Union School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

**TOWNSHIP OF UNION SCHOOL DISTRICT
UNION, NJ
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
UNAUDITED**

The discussion and analysis of Township of Union School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2014. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD&A) is a new element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 – *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* issued in June 1999. Certain comparative information between the current year (2013-2014) and the prior year (2012-2013) is required to be presented in the MD&A.

Financial Highlights

Key financial highlights for 2014 are as follows:

- ◆ In total, net assets increased \$725,147 which represents a 0.98 percent increase from 2013.
- ◆ General revenues accounted for \$119,050,130 in revenue or 90 percent of all revenues. Program specific revenues in the form of charges for services and operating grants and contributions accounted for \$12,711,555 or 10 percent of total revenues of \$131,761,685.
- ◆ Total assets of governmental activities decreased by 1,234,835 as cash and cash equivalents increased by \$1,474,065. Receivables decreased by \$3,651,014. Restricted cash and cash equivalents increased by \$12,517, and capital assets increased by \$929,597.
- ◆ The School District had \$131,036,537 in expenses; only \$12,711,555 of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes) of \$119,050,130 were adequate to provide for these programs.
- ◆ Among governmental funds, the General Fund had \$122,077,744 in revenues and \$122,749,877 in expenditures. The General Fund's fund balance decreased \$672,133 over 2013. This increase was not anticipated by the Board of Education.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Union School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School district's most significant funds with all other non-major funds presented in total in one column. In the case of Township of Union School District, the General Fund is by far the most significant fund.

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during 2014?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector businesses. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the school district as a whole, the financial position of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- ◆ Governmental activities – All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- ◆ Business-Type Activity – This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District's Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found immediately following the fund financial statements.

The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net Position may serve over time as a useful indicator of a government's financial position. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a comparative summary of the School District's net position for 2014 and 2013.

Governmental Activities

The unique nature of property taxes in New Jersey creates the legal requirements to annually seek voter approval for the School District operations, if the tax levy increase is greater than 2%. Property taxes made up 62.93 percent of revenues for governmental activities for the Union School District for fiscal year 2014. The District's total revenues were \$131,791,685 for the year ended June 30, 2014.

Operation and maintenance of facilities involve keeping the school grounds, buildings, and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

"Other" includes special schools and unallocated depreciation.

The School District's Funds

All governmental funds (i.e., general fund, special revenue fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues amounted to \$128,657,540 and expenditures were \$129,334,626 resulting in a deficit of revenues over expenditures of \$677,086.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the governmental funds for the fiscal year ended June 30, 2014, and the amount and percentage of increases and decreases in relation to prior year revenues.

<i>Revenue</i>	<i>2014 Amount</i>	<i>Percent of Total</i>	<i>Increase (Decrease) From 2013</i>	<i>Percent of Increase (Decrease)</i>
Local sources	\$ 83,601,655	64.98%	\$ 1,760,250	2.15%

Total	\$ <u>128,657,540</u>	<u>100.00%</u>	\$ <u>497,067</u>	<u>0.39%</u>

Local revenues increased by \$1,760,250. The increase in local revenue was due to increases in property taxes, tuition, transportation fees and interest on capital reserves and decreases in miscellaneous revenues.

The following schedule represents a summary of general fund, special revenue fund, and debt service fund expenditures for the fiscal year ended June 30, 2014, and the percentage of increases and decreases in relation to prior year amounts.

Changes in expenditures were the results of varying factors. Current expense increased due to additional staff salary and capital outlay.

General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget. Revisions in the budget were made to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- ◆ Interest income was less than anticipated. Interest rates remained some what constant due to economic conditions.
- ◆ Extraordinary aid, which is state aid for special education students whose individual program cost exceeds \$40,000 per year, was not fully anticipated, as there is no guarantee from the Department of Education that these funds would be available.
- ◆ TPAF, which is the state's contribution to the pension fund, is neither a revenue item nor an expenditure item to the district but is required to be reflected in the financial statements.
- ◆ Tuition for special education students is budgeted based on the existing and known incoming students at the time the budget is submitted. Students move into the District during the summer as well as the school year, which necessitates transferring funds to the appropriate account to pay these special education costs.

At June 30, 2014, the School District's overall legal debt margin was \$227,035,412. For more detailed information, please refer to the statistical section of the CAFR.

For the Future

The Township of Union School District is in good financial condition. The School District is proud of its community support of the public schools. A major concern is the continued reliance on local property taxes. However, future finances are not without challenges as the community continues to grow and State funding is uncertain.

Township of Union School District
Notes to the Financial Statements
June 30, 2014

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Township of Union School District have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

Reporting Entity

The Township of Union School District is a Type II District located in Union County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The District consists of elected officials. These officials are responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "*Determining Whether Certain Organizations are Component Units*" (GASB 39) as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and that meet *all* of the following criteria should be discretely presented as component units. These criteria are:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government.
2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization.
3. The economic resources received or held by an *individual organization* that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to that primary government.

The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include seven elementary schools, two middle schools and a high school. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation, Basis of Accounting

The District's basic financial statements consist of District-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Basis of Presentation

District-Wide Statements: The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activity of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of net assets presents the financial condition of the governmental and business-type activity of the District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as generally revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting models.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Governmental Fund Types

General Fund - The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the capital outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital outlay in this fund. U.S. Generally accepted accounting principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to current expense by board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. Thus, the Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Governments (other than major capital projects, debt service or the enterprise funds) and local appropriations that are legally restricted or committed to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election, funds appropriated from the General Fund, and from aid provided by the state to offset the cost of approved capital projects.

Debt Service Fund - The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Proprietary Fund

Enterprise Fund - The enterprise fund accounts for all revenues and expenses pertaining to cafeteria operations. The food service fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges. The district also considers the operations of the CAST as an enterprise fund.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method.

Fiduciary Fund Types

Agency Funds - The agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District. The agency funds included in this category are as follows:

Payroll and Student Activities Funds - These are agency funds used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

Private Purpose Trust Funds - A trust fund used to account for assets donated by individuals that will provide for the payment of awards and scholarships to district students.

Unemployment Insurance Trust Fund - A trust fund used to account for assets to finance the costs of unemployment compensation claims as they arise.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Accounting – Measurement Focus

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

District-Wide, Proprietary, and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an “accounts receivable”. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. “Measurable” means the amount of the transactions can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental and business type activities and enterprise funds of the District follow FASB Statements and Interpretations issued on or before November 30, 1989, Account Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. In accordance with P.L. 2011, c. 202, which became effective in 2012, the districts elected to move the April school board elections to the date of the November general election, thereby eliminating the note on an annual base budget. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2 (m) 1. All budget amendments and transfers must be approved by School Board resolution. There were no budget amendments during the year ended June 30, 2014.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Encumbrance Accounting

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund and capital projects fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

Interfunds

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The Interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

Inventories and Prepaid Expenses

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses which benefit future period, other than those recorded in the enterprise fund, are recorded as an expenditure in the year of purchase.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

The District has an established formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office and Computer Equipment	5-10
Instructional Equipment	10
Grounds Equipment	15

Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. Sick leave benefits provide for ordinary sick pay and begin vesting with employee after fifteen years of service.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Compensated Absences (Continued)

The liability for compensated absences was accrued using the termination payment method, whereby the liability is calculated based on the amount of sick leave and vacation days that are expected to become eligible for payment upon termination. The district estimates its accrued compensated absences liability based on the accumulated sick and vacation days at the balance sheet date by those employees who are currently eligible to receive termination payments.

For the District-wide statements of net assets, the current portion is the amount estimated to be used in the following year. In accordance with GAAP, for the governmental funds, in the fund financial statements, all of the compensated absences are considered long-term and therefore, are not a fund liability and represents a reconciling item between the fund level and District-wide presentations.

Fund Equity

Fund balance restrictions are used to indicate that portion of the fund balance that is not available for expenditures or is legally segregated for a specific future use. Designation of portions of the fund balances are established to indicate tentative plans for financial utilization in a future period. The unassigned fund balances represent the amount available for future budgetary operations.

Unrestricted retained earnings represents the remains of the District's equity in the cumulative earnings of the proprietary funds.

Unearned Revenue

Unearned revenue in the special revenue and capital projects funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is allowable under generally accepted accounting principles.

Accrued Liabilities and Long-Term Liabilities

All payables, accrued liabilities, and long-term liabilities are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

63 provides guidance for reporting net position in the statement of financial position and related disclosures. In compliance with GASB 63, the Statement of Net Assets has been renamed the Statement of Net Position. Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Fund Balance Restrictions

The District has implemented GASB Statement 54, "Fund Balance Reporting and Governmental Fund Type Definitions". This statement modifies fund balance reporting and clarifies fund type definitions. This new Statement aims to enhance the usefulness of fund balance information by providing clearer fund balance clarifications that can be applied more consistently.

Under the new standard, in the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation. The District reports the Capital Reserve, Emergency Reserve, Maintenance Reserve and Excess Surplus as Restricted Fund Balance.

Committed – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education. The District reports amounts Designated for Subsequent Year's Expenditures as Committed Fund Balance.

Assigned – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator. The District reports Year End Encumbrances as Assigned Fund Balance.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fund Balance Restrictions (Continued)

Unassigned – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy described below as unassigned:

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

The general fund is the only fund that will report a negative unassigned fund balance. For all other governmental funds the amount of a residual deficit would be classified as unassigned.

Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from property taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, interest, and tuition.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the District, these revenues are sales in the Enterprise Funds. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Board considers petty cash, change funds, cash in banks, deposits in the New Jersey Cash Management Fund, and short-term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at cost, which approximates market.

Management Estimates

The preparation of financial statements in conformity with GAAP requires management to make assumptions that affect the amounts reported as revenue and expenditures/expenses during the reporting period. These estimates may differ from actual results.

NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONTINUED)

Deposits

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. All collateral must be deposited with the Federal Reserve Bank or a Banking Institution that is a member of the Federal Reserve System, and has capital funds of not less than \$25,000,000.00. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit.

Investments

The purchase of investments by the Board is strictly limited by the express authority of the N.J.S.A. 18A:20-37 Education, Administration of School Districts. Permitted investments include any of the following type of securities:

1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
2. Government money market mutual funds which are purchased from an investment company or investment trust which is registered with the Securities and Exchange Commission under the "Investment Company Act of 1940," 15 U.S.C. 80a-1 et seq., and operated in accordance with 17 C.F.R. § 270.2a-7 and which portfolio is limited to U.S. Government securities that meet the definition of an eligible security pursuant to 17 C.F.R. § 270.2a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 18A:20-37. These funds are also required to be rated by a nationally recognized statistical rating organization.
3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor.

4. Bonds or other obligations of the Local Unit or bonds or other obligations of school districts of which the Local Unit is a part or within which the school district is located.
5. Bonds or other obligations, having a maturity date not more than 397 days from date of purchase, approved by the Division of Investment of the Department of Treasury for investment by School Districts.
6. Local government investment pools that are fully invested in U.S. Government securities that meet the definition of eligible security pursuant to 17 C.F.R. § 270a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 18A:20-37. This type of investment is also required to be rated in the highest category by a nationally recognized statistical rating organization.
7. Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C. 52:18A-90.4); or
8. Agreements for the repurchase of fully collateralized securities if:
 - a. the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection;
 - b. the custody of collateral is transferred to a third party;
 - c. the maturity of the agreement is not more than 30 days;
 - d. the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C. 17:19-41); and;
 - e. a master repurchase agreement providing for the custody and security of collateral is executed.

As of June 30, 2014, the District had no investments outstanding. Based upon the limitations set forth by New Jersey Statutes 40A:5-15.1 and existing investment practices, the District is not generally exposed to credit risks and interest rate risks for its investments, nor is it exposed to foreign currency risk for its deposits and investments.

Bonds are issued by the District pursuant to the provisions of Title 18A, Education, of the New Jersey Statutes and are required to be approved by the voters of the municipality through referendum. The proceeds of bonds are recorded in the Capital Projects Fund and are restricted to the use for which they were approved in the bond referendum. All bonds are retired in annual installments within the statutory period of usefulness.

School Bonds issued by the District are entitled to and benefit from the provision of the New Jersey School Board Reserve Act P.L. 1980 c.72. Basically, funds are held by the State of New Jersey within its State Fund for the Support of Free Public Schools as a school bond reserve pledged by law to secure payment of principal and interest due on such bonds in the event of the inability of the issuer to make payments.

Refunding School Bonds

The district issued, in fiscal year 2011, \$20,175,000.00 in Refunding School bonds to advance refund \$19,157,000.00 of the districts previously issued and outstanding school bonds. The reacquisition price exceeded the net carrying amount by \$1,018,000.00. This amount will be amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. The current year portion charged to the Statement of Activities was \$63,625.00 leaving a balance of \$827,125.00.

Under the escrow agreement, the escrow is irrevocably pledged to the payment of principal and interest on the refunded bonds. As a result, the \$19,157,000.00 of the refunded obligations are considered to be defeased and the liability for those bonds has been removed from the financial statements.

Bonds Authorized But Not Issued

As of June 30, 2014, the District had \$165.00 in Bonds Authorized but not issued.

NOTE 5: PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund (TPAF) - The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

NOTE 5: PENSION PLANS (CONTINUED)

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provision of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Defined Contribution Retirement Program (DCRP) The Defined Contribution Retirement Program (DCRP) was established under the provision of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 to provide coverage to elected and certain appointed officials, effective July 1, 2007. Membership is mandatory for such individuals with vesting occurring after one year of membership.

Significant Legislation

Effective June 28, 2011, P.L. 2011, c. 78 enacted certain changes in the operations and benefit provisions of the TPAF and the PERS systems.

Pension Plan Design Changes

Effective June 28, 2011, P.L. 2011, c. 78, new members of TPAF and PERS, hired on or after June 28, 2011, will need 30 years of creditable service and have attained the age of 65 for receipt of the early retirement benefit without a reduction of 1/4 of 1% for each month that the member is under age 65. New members will be eligible for a service retirement benefit at age 65.

Funding Changes

Under the new legislation, the methodology for calculating the unfunded accrued liability payment portion of the employer's annual pension contribution to the PERS, and TPAF. The unfunded actuarial accrued liability (UAAL) will be amortized for each plan over an open-ended 30 year period and paid in level dollars. Beginning with the July 1, 2019 actuarial valuation (July 1, 2018 for PFRS), the UAAL will be amortized over a closed 30 year period until the remaining period reaches 20, when the amortization period will revert to an open-ended 20 year period.

COLA Suspension

The payment of automatic cost-of-living adjustment to current and future retirees and beneficiaries are suspended until reactivated as permitted by this law.

NOTE 5: PENSION PLANS (CONTINUED)

Vesting and Benefit Provisions The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after ten years of service, except for post-retirement healthcare benefits that vest after 25 years of service.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Contribution Requirements The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation.

Effective June 28, 2011, P.L. 2011, c. 78 provides for increases in the employee contribution rates: from 5.5% to 6.5% plus an additional 1% phased-in over 7 years beginning in the first year, meaning after 12 months, after the law's effective date for TPAF and PERS.

Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of TPAF (*i.e.* the State of New Jersey makes the employer contribution on behalf of public school districts).

During the fiscal years ended June 30, 2014, 2013, and 2012, the State of New Jersey contributed \$2,112,653.00 \$3,444,456.00 and \$1,623,810.00, respectively to the TPAF pension system on behalf of the District.

In accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$3,906,443.44 during the year ended June 30, 2014 for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. This amount has been included in the basic financial statements, and the governmental fund statements and schedules as a revenue and expenditure in accordance with GASB 27.

NOTE 6: OTHER POST-RETIREMENT BENEFITS

For eligible retired employees, the School District participates in the State Health Benefits Program (SHBP), a cost-sharing, multiple-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 *et seq.*, to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of the SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295.

P.L. 1987, c. 384 and P.L.1990, c. 6 required Teachers Pension and Annuity Fund (TPAF) and Public Employees Retirement System (PERS), respectively, to fund Post Retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on state disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post retirement medical benefits through TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired State employees and retired educational employees. As of June 30, 2013, there were 100,134 retirees receiving post-retirement medical benefits. The cost of these benefits and the State contributed \$1.07 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62.

Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c.126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$173.8 million toward Chapter 126 benefits for 17,356 eligible retired members in Fiscal Year 2013.

The State will set the contribution rate based on the annual required contribution of the employers (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45.

NOTE 6: OTHER POST-RETIREMENT BENEFITS

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) of the plan over a period not to exceed thirty years. The State's contributions to the State Health Benefits Program Fund for TPAF retirees' post-retirement benefits on behalf of the School District for the years ended June 30, 2014, 2013 and 2012 were \$3,463,957.00, \$3,894,809.00 and \$3,264,283.00 respectively, which equaled the required contributions for each year. The State's contributions to the State Health Benefits Program Fund for PERS retirees' post-retirement benefits on behalf of the School District was not determined or made available by the State of New Jersey.

NOTE 7: LITIGATION

The Board attorney's letter advises that there is no litigation, pending litigation, claims, contingent liabilities, unasserted claims or assessments or statutory violations which involve the Board of Education and which might materially affect the Board's financial position.

NOTE 8: CONTINGENCIES

The Board receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 2013-2014 fiscal year were subject to the U.S. OMB A-133 and New Jersey OMB Circular 04-04 which mandates that grant revenues and expenditures be audited in conjunction with the Board's annual audit. Findings and questioned costs, if any, relative to federal and state financial assistance programs will be discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. The Board management does not believe such an audit would result in material amounts of disallowed costs.

NOTE 9: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District maintains commercial insurance coverage for property, liability, and student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table below is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid, and the ending balance of the District's expendable trust fund for the current and previous two years:

NOTE 13: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Township of Union Board of Education in the amount of \$1,401,000.00 in the 2000-2001 school year for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes. A district may also appropriate additional amounts when the express approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the year ending June 30, 2014 year is as follows:

Beginning balance July 1, 2013	\$	6,218,659.27
Increased by:		
Transfer In	\$

NOTE 14: MAINTENANCE RESERVE ACCOUNT

A maintenance reserve account was established by the Township of Union Board of Education in the amount of \$250,000.00 in the 2007-2008 school year for the accumulation of funds for use as maintenance expenditures in subsequent fiscal years. The maintenance reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The maintenance reserve account is used to accumulate funds for the required maintenance of a facility in accordance with EFCFA (N.J.S.A. 18A:7G-9). The passage of S1701 also impacts deposits into maintenance reserve. EFCFA requires that upon the district completion of school facilities project, the district must submit a plan for the maintenance of that facility. The activity of the maintenance reserve for the July 1, 2013 to June 30, 2014 year is as follows:

Beginning balance July 1, 2013	
and ending balance June 30, 2014	\$ <u>2,050,000.00</u>

NOTE 15: EMERGENCY RESERVE ACCOUNT

An emergency reserve account was established by the Township of Union Board of Education in the amount of \$250,000.00 in the 2007-2008 school year for the accumulation of funds for use as emergency expenditures in subsequent fiscal years. The emergency reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

The emergency reserve account was created to fund medical expenses in excess of 4%. The emergency reserve account is used to fund unanticipated general fund current expense costs and may be established to supplement the reserve in the district's annual budget or through a transfer by board resolution at year end of any unanticipated revenue and unexpended line item appropriation amounts in accordance with N.J.S.A. 18A:7F-41.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable.

b Rates for debt service are based on each year's requirements.

Sources: Assessed value data used to estimate applicable percentages provided by the Union County Board of Taxation.
Debt outstanding data provided by each governmental unit.

Note Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District.
This schedule estimates the portion of the outstanding debt of the businesses of the Township of Union. This process recognizes that, when considering the District's ability to issue and repay the long term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

^a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Honorable President and Members
of the Board of Education
Township of Union School District
County of Union
Union, New Jersey 07083

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Township of Union School District (the "District") as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated October 31, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township of Union School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

SUPLEE, CLOONEY & COMPANY

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted other matters of noncompliance that we have report to the Board of Education of the Township of Union School District in a separate Auditor's Management Report & Administrative Findings-Financial and Compliance dated October 31, 2014.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL
AND STATE FINANCIAL ASSISTANCE PROGRAMS AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH U.S. OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04**

Honorable President and Members
of the Board of Education
Township of Union School District
County of Union
Union, New Jersey 07083

Report on Compliance for Each Major Federal and State Program

We have audited the Township of Union School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *New Jersey OMB State Grant Compliance Supplement* that could have a direct and material effect on each of the Township of Union School District's major federal and state programs for the year ended June 30, 2014. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Township of Union School District's major federal and state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* and *New Jersey OMB 04-04*. Those standards, *OMB Circular A-133* and *New Jersey OMB 04-04* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Township of Union School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Township of Union School District's compliance.

Opinion on Each Major Federal and State Program

In our opinion, the Township of Union School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2014.

Report on Internal Control Over Compliance

Management of the Township of Union School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Township of Union School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal and state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with *OMB Circular A-133* and *New Jersey OMB 04-04*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Township of Union School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

SUPLEE, CLOONEY & COMPANY

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of *OMB Circular A-133* and State of New Jersey *OMB 04-04*. Accordingly, this report is not suitable for any other purpose.

Township of Union School District
Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance
Year Ended June 30, 2014

NOTE 1. GENERAL

The accompanying schedules of expenditures of Federal Awards and State financial assistance include federal and state award activity of the Board of Education, Township of Union School District. The Board of Education is defined in Note 1 to the District's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedules of expenditure of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These basis of accounting are described in Note 1 to the board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States Local Governments, and Non-profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

NOTE 3. RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedule (RSI) are presented for the general fund and special revenue fund to demonstrate finance-regulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payment in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, payments are not recognized until the subsequent budget year due to the state deferral and recording of one or more June state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the one or more state aid June payments in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$121,368.67) for the general fund and 57,833.74 for the special revenue fund. See Exhibit "C-3" for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following pages.
