Proposal No. P2014044

UHS Electrical Upgrades
2400 North Third St.
Union, NJ

Dear Tom,

It was a pleasure meeting with you to discuss the proposed UHS Electrical Upgrades located at 2400 North Third St., Union, NJ. Please find two copies of Proposal No. P2014044 enclosed for your review.

The scope of architectural services we will provide is divided into various phases. Please refer to the enclosed "Project Program Description", "Estimated Fee Schedule" and "Attachments" to obtain a breakdown of these services and their associated fees.

If this proposed agreement meets with your approval, please sign both copies and return one copy for our records. This signed proposal will serve as our contractual agreement. We look forward to providing the architectural and engineering services you require and will begin upon receipt of a signed proposal.

If you have any questions please do not hesitate to contact me. Thank you.

Sincerely,

Thomas R. Potter for Potter Architects

Project Program Description

**UHS Electrical Upgrades
2400 North Third St.
Union, NJ**

**Proposal No. P2014044
April 21, 2014**

I. SCOPE OF WORK AND BUDGET:

It is our understanding that the Union Board of Education wishes to upgrade the Electrical Service and Distribution for Union High School. The investigation work will include visual observation, as well as interviews with maintenance personnel. The new electrical service will be relocated from the present subterranean vault to a new above-grade building enclosure/structure.

The budget for the project is \$1,668,964+/- including a Contingency Allowance of \$79,474, based on the ROD Grant application, which was based a conceptual engineering assessment.

The following items of design are included in this budget:

- * Report of Existing Conditions
- * Demolition
- * Primary Feeders
- * Service Entrance Switchgear
- * Secondary Feeders
- * Distribution Feeders
- * Distribution Substations
- * Computer Panelboards (with surge Supression)
- * K-Rated Transformers
- * New Building Enclosure/Structure (prefab or other) for new Switchgear
- * M/E/P/FP for New Building Enclosure
- * SES Tie-In to Building Management System
- * Contingency Allowance

All parties should assume a shutdown of power to UHS for a minimum period of two weeks for the changeover. Temporary power and other various details of the design will need to be reviewed and discussed in a series of owner-consultant meetings. Please begin to organize your stakeholders in order for these meetings to take place during the summer and/or fall of 2014.

Computer panel costs do not include branch circuit wiring. There is no branch circuit wiring anticipated as part of this scope of work.

New Emergency Power is not part of this proposal.

II. SCOPE OF PROFESSIONAL SERVICES:

A) Electrical Engineering and Architecture:

The electrical work shall consist of designing the replacement of the existing 4,000 amps electrical service and distribution system at the Union High School.

- 1) Site Investigation Phase:
 - a. Perform site visit(s) as required to observe and document the existing conditions of the electrical service as it relates to this project and proposed scope of services.
- 2) Review available existing documents, including as-built drawings, specifications, shop drawings and maintenance manuals.
- 3) Survey the existing service entrance switchgear to determine existing conditions and equipment capacities and conditions.
- 4) Any existing equipment not operating due to age or maintenance issues shall be noted.
- 5) Interview building maintenance personnel on individual problems and existing issues.
- 6) Become aware of any future growth plans for the building that would affect the existing service entrance and service entrance switchgear.
- 7) Explore concepts of new building enclosure/structure.

Continued...

- 8) Attend meetings to review Owner concerns and project scheduling.
- 9) Prepare as-built drawings of the existing building suitable for preparation of bid documents.

B) Report:

- 1) Prepare a report identifying obsolete or improperly operating equipment and the parameters of new service entrance switchgear and identifying any modifications necessary to integrate the new system(s) with the existing building.
- 2) Prepare descriptions of the recommended additions and modifications.
- 3) Opinions shall be given as to problems, solutions and costs.
- 4) Prepare a budget cost estimate and duration schedule for implementing the recommended solution(s).

C) Design Phase:

- 1) Preparation of construction documents for the systems and equipment designed and/or specified. The construction documents will be prepared in the following format(s):

Specifications shall be located on the drawings and included in Project Manual in CSI format.

Drawings shall be prepared on architectural size D (24 x 36) sheets.

- 2) Preparation of an opinion of probable cost of construction for all systems and equipment designed and/or specified.
- 3) Attend one (1) design submission review meeting with the Architect and/or Owner.
- 4) Design the replacement of the existing electrical service, service entrance switchgear and first level of electrical distribution system. The design shall include, but not be limited to the design of Service Entrance Switchgear, Secondary Feeders, Distribution Feeders, Distribution Substations (quantity 4), Computer Panelboards with Surge Suppressors (quantity 5), K-Rated Transformers (quantity 5), MEP for building enclosure/structure, SES Tie-in to Building Management System.
- 5) Design of new building enclosure/structure.
- 6) Prepare plans and documentation as required to obtain preliminary approval. Obtain NJ Department of Ed approval as required.
- 7) Prepare plans and specifications as required for bids, permits, and construction. Plans and specifications will be prepared in accordance with applicable local and state requirements.

D) Bidding or Negotiation Phase:

- 1) Assist Owner in obtaining bids, contractor selection and assist in obtaining all necessary start-up documentation, etc. We will provide a complete package and specifications, including forms for Owner/Contractor contract, etc.
- 2) Respond to Requests for Information (RFI's) during bidding.
- 3) Attend pre-bid meeting.
- 4) Attend bid opening.
- 5) Tabulate bids, review the bid proposals, and offer a recommendations along with the BOE's counsel for the selection of a contractor.

E) Construction Phase:

- 1) Attend project kick-off meeting.
- 2) Review submittals and shop drawings for those systems and equipment designed and/or specified.
- 3) Respond to Requests for Information (RFI's) during construction.
- 4) Review change order requests.
- 5) Review payment requests.
- 6) Perform up to sixteen (16) site observation visits to observe construction progress. Interact with contractor and act as Owner's liaison for all Owner/Contractor communications.
- 7) Preparation of a site observation visit report for each site observation visit performed.
- 8) Perform one (1) site observation visit upon the Substantial Completion of the construction for the purpose of preparing the Punch List.
- 9) Prepare and distribute Punch List; Issue Certificate of Substantial Completion.
- 10) Perform one (1) site observation visit to confirm completion of Punch List.
- 11) At Final Completion, assist Owner in obtaining all necessary bonds, guarantees and close-out documentation; Authorize final payment to Contractor.

F) Deliverables: The following deliverables will be provided as part of the services offered in this proposal.

- 1) Pre-Design Phase: A report shall be prepared upon completion of a survey and analysis of existing conditions and an opinion given as to the problems, solutions, costs and time lines. This submission shall include:
 - a) Three (3) copies of the original report;
 - b) An electronic copy of the report in PDF format.
- 2) A progress design (Design Development) submission upon reaching 50% completion of the completion of the Design Phase Services. This submission will include:
 - a) Two (2) sets of original plots of the progress drawings transmitted to the Architect via first class or priority mail.
 - b) An electronic copy of the progress drawing set, in a pdf file type format, transmitted to the Architect via electronic mail.
 - c) Two (2) original printed copies of the preliminary opinion of probable construction costs transmitted to the Architect via first class or priority mail.
 - d) An electronic copy of the preliminary opinion of probable construct costs, in a pdf file type format, transmitted to the Architect via electronic mail.
 - e) An electronic copy of the CSI format specifications in a pdf file format transmitted to the Architect via electronic mail.

Estimated Fee Schedule

UHS Electrical Upgrades
2400 North Third St.
Union, NJ

Proposal No. P2014044
April 21, 2014

Schematic Design	12.00%	\$17,160.00
-------------------------	---------------	--------------------

Coordination of Owner supplied data; Development of existing building plans; Preparation of a recommendations report including design program analysis.

Preliminary / Design Development	20.00%	\$28,600.00
---	---------------	--------------------

Development of preliminary design; Construction assemblies and building materials research; Building code research, review & interpretations; Development of preliminary M/E/P/FP & structural systems for building enclosure; Assistance in preparation of Educational Specifications; Obtain Preliminary and Final Educational State approval. Provide Preliminary documents for review and approval.

Construction Documents	40.00%	\$57,200.00
-------------------------------	---------------	--------------------

Construction Documents Electrical and Building plans, elevations & sections; Construction details & notes; Finish, & door schedules; Foundation & structural plans, details & notes; Mechanical, Electrical, Plumbing, and Fire Protection Engineering drawings for new building enclosure; Project Manual; Bid documents & specifications; Signed & Sealed documents for permit filing; Submission of plans for building permit.

Bidding or Negotiations	3.00%	\$4,290.00
--------------------------------	--------------	-------------------

Assist the Owner in establishing a list of bidders; Provide copies of construction documents for contractor bidding; Assist Contractors bidding and distribution of addenda; Review and evaluation of bids received; Analysis of alternates and/or substitutions.

Construction Administration	25.00%	\$35,750.00
------------------------------------	---------------	--------------------

Project construction schedule monitoring; Review of submittals, substitutions, shop drawings, etc.; Review of change orders, certificates of payment, etc.; Creation of punch list at Substantial Completion; Periodic review of punch list progress; Review of final close-out documents at Final Completion.

Estimated Professional Services Total	100.00%	\$143,000.00
--	----------------	---------------------

The compensation schedule establishes a maximum fixed fee for each phase of the project. Compensation for services shall not exceed a stipulated sum of \$33,800 unless agreed upon in advance by both parties (see schedule for breakdown).

Stipulated fees shall be valid for not more than 90 days from the date noted unless an agreement is reached.

Proposal No. P2014044

April 21, 2014

THE FOLLOWING SERVICES ARE NOT BEING PROVIDED IN THIS AGREEMENT and shall be considered Additional Services and compensated for as provided in applicable subparagraphs of this contract agreement:

Work not defined in the Project Program Description including, but not limited to:
Interior Design - Detailed finishes & materials for walls, ceilings, floors, trim, fixtures, furniture, etc.
Model or professional rendering of proposed project design.
Detailed construction cost estimate of proposed project design.
Site / Civil engineering and/or landscape design/consultations.
Soil / Hydrogeological / Geotechnical engineering, tests, reports, etc.
Changes to design that are requested by the Owner after completion of Preliminary Design Phase.
Printing beyond allowance of (8) sets of plans and project manuals.
Travel expense beyond allowance of (150) miles.
Postage/delivery expenses beyond allowance of (\$200)
Preliminary designs beyond basic services allowance of two (2) schemes.
Construction management.
Preparation of as-built drawings (post-construction).
Coordination of separate contractors.
Testing services.
Special inspections for materials and work as may be required by codes and/or municipal code enforcement.
Legal review of bid documents and legal, accounting, and insurance counseling services.
Special foundation design due to substandard soil conditions.
Sprinkler, fire alarm, plumbing, electrical and HVAC mechanical drawings other than electrical design for main building and said services for the new building enclosure.

C. HOURLY RATE SCHEDULE

Refer to attached Hourly Rates Schedule

D. ADDITIONAL INFORMATION

GENERAL CONDITIONS OF SERVICES

SCOPE OF SERVICES - The services to be provided by PA have been set forth in the Proposal / Project Program Description and shall remain valid for a period of 60 days from the date of the Proposal, after which PA may elect to withdraw or renegotiate this Proposal. All services not specifically identified are excluded from PA's scope and will only be performed in accordance with a written amendment to the Proposal outlining the exact services and the associated fees. Once signed, the rates and fees quoted in this proposal will be valid for 180 days from the date of acceptance. Terms and fees are subject to modification beyond that time frame.

COMPLETION OF SERVICES - The architectural services contained within this proposal shall be deemed "complete" upon the occurrence of the following milestone: Upon delivery of Certificate of Substantial Completion and Punch List. Please note that any extension of services beyond above milestone shall be deemed "Additional Services" and billed in accordance with the Hourly Rates listed in the Contract.

EXECUTION OF CONTRACT - The individuals executing this Contract (signator), if acting on behalf of partnership, corporation, funding agency or public entity represent that they have the authority to do so, and to bind the entity to this Agreement. The scope of services can only be adjusted or revised with a typewritten, signed change order or scope modification agreement. The signator will also be responsible for payment and for authorizing additional services, if applicable.

RIGHT TO ADVERTISE - The Architect shall have the right to furnish and display a temporary sign at the jobsite during the construction time period; the Architect may utilize project drawings/photographs for promotional use.

ASSIGNMENT - This Contract is not assignable except with the prior written consent of PA, and no assignment shall relieve the signatory of any obligations under this Contract.

FEE - The total fee, when stated as a lump sum, shall be based upon Scope of Services, and shall not be exceeded without written approval of the Client. Where the fee arrangement is to be on an hourly basis, the rates shall be those that prevail at the time services are rendered.

BILLINGS / PAYMENTS - Please note that payment is due upon completion of each phase of the work. Final Construction Drawings will not be released until final payment is made. Invoices will be submitted monthly for services and are due when rendered. A monthly service charge of 1.5% of the unpaid balance will be added to PAST DUE accounts. In the event any portion or all of an account remains unpaid 15 days after billing, the client shall pay cost of collection, including reasonable attorney fees. If collection agency is needed to collect unpaid fees, client will be responsible for all collection agency fees plus interest, in addition to payment of unpaid invoices. Use of instruments of service is contingent upon payment for services in full.

SUSPENSION/TERMINATION OF SERVICES - Failure to meet the payment schedule outlined in this Agreement may result in termination of project. Fees for projects terminated by Owner are to be based on the hourly rate for all time expended to point of termination. Invoices shall be considered PAST DUE if not paid upon receipt, and PA may, without waiving any claim or right against the Client, and without liability whatsoever to the Client, terminate the performance of service. PA reserves the right to stop work until invoices are paid in full. Client agrees that any delays, claims or losses associated with stopping of work under these circumstances will not be the responsibility of PA. PA has no duty to perform services or to allow use of instruments of service on delinquent accounts. If services are suspended due to non-payment, PA will restart services when account is restored to good standing.

PHASING - Phasing of the project and/or splitting the drawings into two or more phases or separate projects, for any reason, requires additional resources and effort. Therefore, if at any point the client requests same, this will be considered a change in scope and additional fees will apply in accordance with this agreement.

STANDARD OF CARE - Services performed by PA under this agreement will be conducted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing in the same locality under similar conditions. No other representation, expressed or implied, and no warranty or

guarantee or fiduciary responsibility is included or intended in this agreement, or in any report, opinion, document or otherwise. Unless otherwise specified in this Proposal, the services performed by PA will not include an independent analysis of work conducted, or information provided, by independent laboratories or other independent contractors retained by PA.

HIDDEN CONDITIONS - PA shall not be responsible for hidden conditions of the existing structure or site. Hidden conditions are conditions which are not readily visible to the human eye.

ZONING INTERPRETATIONS - Please note that we will make every attempt possible to successfully interpret the zoning regulations in order to properly design your project within the guidelines of your township zoning ordinances. This may also include meeting with township officials to get interpretations of township zoning regulations pertaining to your specific project. If changes to the plans are required as a result of misinformation or inaccurate information conveyed to PA by township zoning officials during the preliminary phase of your project, and result in any revisions to the final construction documents after township submission, additional fees and charges may be incurred by Client.

INFERRED CONDITIONS - Conditions may vary from those which are visibly observed at the locations of open structure or other such visible conditions. PA will base interpretations, recommendations and design upon conditions inferred from the conditions observed. Client recognizes that any future determination of conditions different than those which were encountered at the observable locations may significantly impact the interpretation, recommendations and design provided by PA. Any such variation of conditions should be brought to the prompt attention of PA to assess the impact of the variations on the previously provided interpretations, recommendations and design. PA will take no responsibility for any interpretation or recommendation others may make. Fees for additional analysis or investigation shall be paid by the Client. Failure of Client to agree to and pay for additional analysis shall be deemed as substantial failure to perform in accordance with the terms of this Agreement.

STANDARDS AND CODES - If the work under the Contract is to be performed in accordance with, or where the deliverables and instruments of service resulting from our work will be reviewed against codes, standards and regulations, the edition or revision of said codes, standards and regulations in effect as of the date of this Agreement will apply. Any revisions to documents or other additional work caused by the application of a more recent code, standard or regulation shall be considered a Changed Condition under this Agreement. In addition, any revisions or additional work required by regulatory agencies which are not explicitly outlined in applicable codes, standards or regulations will also be considered a Changed condition under this Agreement.

RIGHT OF ENTRY - The Client shall provide for right of entry for all PA personnel and equipment necessary to perform the intended scope of services.

UTILITIES - PA will take reasonable precautions to avoid damage or injury to any visible subsurface utilities or structures. PA shall not be held responsible for damage to any underground utility or structure which has not been properly marked out by the respective owner of said utility or structure prior to the commencement of our work. Owner is responsible to order all mark-outs. If location of underground utilities is included under the Scope of Services, These locations will be based upon visible identification marks left by the respective utility companies or upon locations that can be visually identified from the ground surface. Unless other contractual agreements are made, this Proposal does not include testing, opening or entering manholes, inlets, trenches, or other utility access ways for the purpose of measuring, identifying, or location said utilities.

CHANGED CONDITIONS - If PA discovers conditions or circumstances that it had not contemplated at the commencement of this Agreement ("Changed Conditions"), PA will notify client in writing of the Changed Conditions. Client and PA agree that they will then renegotiate in good faith the terms and conditions of this Agreement. If PA and Client cannot agree upon amended terms and conditions within 30 days after notice, PA may terminate this Agreement and be compensated as set forth in "Termination and Suspension".

CERTIFICATIONS - Client agrees NOT to require that PA execute any certification with regard to Services performed or Work tested and/or observed under this Agreement unless: 1) PA believes that it has performed sufficient Services to provide a sufficient basis to issue the certification; 2) PA believes that the Services performed or Work tested and/or observed meets the criteria of the certification; and 3) PA has reviewed and approved in writing the exact form of such certification prior to execution of this Agreement and has included certification(s) in the Scope of Services. Any certification by PA is limited to an expression of professional opinion based upon the Services performed by PA, and does not constitute a warranty or guaranty, either expressed or implied.

ENERGY EFFICIENT DESIGN - The Architect will exercise reasonable efforts to design and specify products and/or systems that achieve energy performance expectations or LEED Certification expectations that are expressly called for in this Contract, if any. The Architect does not, however, provide assurances that those performance or certification expectations will be met.

RISK ALLOCATION - Client agrees that PA's total liability to the Client, for any and all injuries, claims, losses, expenses, damages or claim expenses arising out of this Agreement, from any cause or causes, shall not exceed the total amount of PA's fee.

INDEMNIFICATION - The Client shall indemnify and hold harmless PA and all of its personnel from and against any and all claims, damages, losses and expenses (including reasonable attorney fees) arising out of or resulting from the performance of PA, to the extent that any such claims, damage, loss or expense is caused in whole or in part by the negligent act or omission, and/or strict liability of the Client, anyone directly or indirectly employed by the Client (except PA, or anyone for whose acts any of them may be liable).

NO SPECIAL OR CONSEQUENTIAL DAMAGES - Client and PA agree that PA shall not be liable to Client for any special, indirect or consequential damages whatsoever, whether caused by PA's negligence, errors, omissions, strict liability, breach of contract, breach of warranty or other cause or causes whatsoever.

OWNERSHIP OF DOCUMENTS - The plans as articles of service are, and will remain, the property of Potter Architects, L.L.C. (PA). Plans and/or services for this project may not be used for another building or project without PA's prior written consent. Client may use the documents for the project or purposes contemplated by this Agreement, providing that plans and/or services have been paid for in full or per agreement. Client may not reuse, reprint or electronically distribute the documents for this project or for any extension of the project or other project without PA's prior written consent. Any unauthorized use, reuse or extension of PA's work will be considered a violation, and is at Client's sole risk and without liability to PA, and Client will indemnify, defend, and hold PA harmless from all claims or damages arising from any unauthorized use, reuse or extension of PA's work. Potter Architects, L.L.C. (PA) expressly reserves its commonlaw copyright and other property rights in these plans and/or services. These plans are not to be reproduced, changed or copied in any manner whatsoever, nor are they to be assigned any third party, without first obtaining the express written permission and consent of PA. PA reserves the right to withdraw plans from permitting agencies in the event of non-payment in full or per agreement for plans and/or services.

TERMINATION AND SUSPENSION - This Agreement may be terminated or suspended for convenience by either party by thirty (30) days written notice, or in the event of substantial failure to perform in accordance with the terms of the Agreement by the other party through no fault of the terminating party by ten (10) days written notice. If this Agreement is terminated, it is agreed that PA shall be paid the total charges for labor and material performed to the termination notice date, plus reimbursable charges.

ALTERNATIVE DISPUTES RESOLUTION (ADR) - All claims, disputes, and other matters in controversy between PA and Client arising out of or in any way related to this Agreement will be submitted to mediation before and as a condition precedent to other remedies provided by law. If a dispute at law arises related to the services provided under this Agreement and that dispute requires litigation instead of ADR as provided above, then 1) Client assents to personal jurisdiction in the state of PA's principal place of business; 2) The claim will be litigated and tried in judicial jurisdiction of the court of the county where PA's principal place of business is located and Client waives the right to remove the action to any other county or judicial jurisdiction; and 3) If PA prevails, PA will be entitled to recovery of all reasonable costs

incurred, including staff time, court costs, attorney's fees, and other claim related expenses.

SAFETY AND CONSTRUCTION SCHEDULE - PA is not responsible for the implementation, discharge, or monitoring of construction safety standards or practices. These items are explicitly excluded from our Scope.

PA shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs in connection with the work, since these are solely the Contractor's responsibility CONSTRUCTING the project. PA shall not be responsible for the Contractor's schedules or failure to carry out the Work in accordance with the Contract Documents. This proposal is based upon the owner hiring a properly insured and NJ Licensed General Contractor to construct the entire project. PA shall not have control over or charge of acts or omissions of the General Contractor, Subcontractors, or their employees, or of any other person performing any portion of the work.

SITE VISITS / OBSERVATION - In the event PA is retained to provide site visits/observation, PA as a representative of the Owner, upon request, shall visit the site at intervals appropriate to the stage of construction (limited to the number of visits stated in the allowances), to become generally familiar with and to keep the Owner informed about the progress and quality of the Work completed, to endeavor to guard the Owner against defects and deficiencies in the Work, and to determine in general if the Work is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, PA shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work.

SAMPLES AND TESTING - In the event PA is retained to provide laboratory testing or analytic services, PA will preserve such test materials or other sample as it deems necessary for the Project, but no longer than 45 days after issuance of any documents that include the data obtained from these samples. Client will promptly pay and be responsible for the removal and lawful disposal of all samples, contaminated samples, cuttings, hazardous materials, and other hazardous substances. Client will take custody of all testing portals and/or probes installed during any testing or investigation by PA, and will take any and all necessary steps for the proper maintenance, repair or closure of such testing portals and/or probes at Client's expense.

DISCOVERY OF UNANTICIPATED POLLUTANT RISKS - Hazardous materials or certain types of hazardous materials may exist at a site. The Architect and his consultants shall have no responsibility for the discovery, presence, handling, removal, or disposal of, or exposure of persons to hazardous materials in any form at the Project site, including but not limited to asbestos, asbestos products, PCB, fuel products and/or storage tanks, mold or other toxic substances. Unless PA's Scope of Services specifically includes Environmental Services, PA will not be responsible for the identification, delineation, evaluation, treatment or removal of any hazardous substance. Should such substance be encountered and identified by others, PA will take action to protect the health and welfare of their personnel, and will notify the Client for direction. The conditions of this section are superseded to the extent that the Scope of Services specifically includes the identification, delineation, evaluation and treatment of hazardous materials.

BIOLOGICAL POLLUTANTS - PA's Scope of Work does not include the investigation or detection of the presence of any biological pollutants in or around any structure. Client agrees that PA will have no liability for any claim regarding bodily injury or property damage alleged to arise from or be caused by the presence of or exposure to any biological pollutants in or around any structure. In addition, Client will defend, indemnify, and hold harmless PA from any third party claim for damages alleged to arise from or be caused by the presence of or exposure to any biological pollutants in or around any structure. The term "biological pollutants" includes, but is not limited to, molds, fungi, spores, bacteria, and viruses, and the byproducts of any such biological organisms. Unless PA's Scope of Services specifically includes Environmental Services, PA will not be responsible for the identification, delineation, evaluation, treatment or removal of any hazardous substance.

ENTIRE AGREEMENT - This Proposal / Project Program Description / Fee Schedule / Hourly Rates / General Conditions constitute the entire Agreement between Client and PA.

BUSINESS HOURS - Regular business hours of Potter Architects are Monday through Friday, 7:30a to 4:30p.
