

TOWNSHIP OF UNION PUBLIC SCHOOLS

**Social Studies Grade 2
Curriculum Guide
May 2017**

Mission Statement

The mission of the Township of Union Public Schools is to build on the foundations of honesty, excellence, integrity, strong family, and community partnerships. We promote a supportive learning environment where every student is challenged, inspired, empowered, and respected as diverse learners. Through cultivation of students' intellectual curiosity, skills and knowledge, our students can achieve academically and socially, and contribute as responsible and productive citizens of our global community.

Philosophy Statement

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

Statement of District Goals

- **Develop reading, writing, speaking, listening, and mathematical skills.**
- **Develop a pride in work and a feeling of self-worth, self-reliance, and self-discipline.**
- **Acquire and use the skills and habits involved in critical and constructive thinking.**
- **Develop a code of behavior based on moral and ethical principals.**
- **Work with others cooperatively.**
- **Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.**
- **Acquire a knowledge and understanding of the physical and biological sciences.**
- **Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.**
- **Appreciate and understand literature, art, music, and other cultural activities.**
- **Develop an understanding of the historical and cultural heritage.**
- **Develop a concern for the proper use and/or preservation of natural resources.**
- **Develop basic skills in sports and other forms of recreation.**

Course Description

The second grade social studies curriculum guide is aligned with the New Jersey Student Learning Standards. The guide provides essential questions and objectives for each of the major content areas of study. The objectives are related to the essential questions. At the conclusion of each unit, the student is expected to be able to respond to the essential questions and objectives. In addition, lessons in friendship, respect, and tolerance have been included in conjunction with NJSA 18A:35-28 Holocaust/Genocide Education and with The Amistad Bill (A1301).

The course is divided into the following units:

- Culture
- Geography
- History
- Economics
- Citizenship

New Jersey Student Learning Standards for Social Studies

Social Studies

The digital age has transformed social studies education, allowing 21st-century learners to transcend the limits of time and place and experience historic events virtually. By expanding their learning networks through online collaboration with experts and other students from around the world, New Jersey social studies students develop an increased depth of understanding of our global society. At the same time, their understanding of the fundamental principles and values of American democracy and citizenship provides the conceptual framework that allows them to make informed decisions about local, national, and international issues and challenges.

Mission: *Social studies education provides learners with the knowledge, skills, and perspectives needed to become active, informed citizens and contributing members of local, state, national, and global communities in the digital age.*

Vision: An education in social studies fosters a population that:

- Is civic minded, globally aware, and socially responsible.
- Exemplifies fundamental values of American citizenship through active participation in local and global communities.
- Makes informed decisions about local, state, national, and global events based on inquiry and analysis.
- Considers multiple perspectives, values diversity, and promotes cultural understanding.
- Recognizes the implications of an interconnected global economy.
- Appreciates the global dynamics between people, places, and resources.
- Utilizes emerging technologies to communicate and collaborate on career and personal matters with citizens of other world regions.

Intent and Spirit of the Social Studies Standards

All students receive social studies instruction from Preschool through grade 12. The challenges of the 21st century are complex, have global implications, and are connected to people, places, and events of the past. The study of social studies focuses on deep understanding of concepts that enable students to think critically and systematically about local, regional, national, and global issues. Authentic learning experiences that enable students to apply content knowledge, develop citizenship skills, and collaborate with students from around the world prepare New Jersey students for the 21st-century workplace. The natural integration of technology in social studies education allows students to overcome geographic borders, apply scientific and mathematical analysis to historical questions and contemporary issues, appreciate cultural diversity, and experience events through the examination of primary sources.

The New Jersey social studies standards and indicators reflect national and state standards and other documents published by the National Center for History Education, National Council for Social Studies, National Council for Geographic Education, Center for Civic Education, National Council on Economic Education, Mid-Continent Research on Education and Learning, National Assessment of Educational Progress, and the Partnership for 21st Century Skills.

The Role of Essential Questions

Key essential questions recur throughout the study of history. They provoke inquiry and lead to deeper understanding of the big ideas that enable students to better comprehend how the past connects to the present. The essential questions created for this project, which follow, are used to frame content goals and to inform the development of the cumulative progress indicators.

A. Civics, Government, and Human Rights

- How do citizens, civic ideals, and government institutions interact to balance the needs of individuals and the common good?
- How have economic, political, and cultural decisions promoted or prevented the growth of personal freedom, individual responsibility, equality, and respect for human dignity?

B. Geography, People, and the Environment

- How do physical geography, human geography, and the human environment interact to influence or determine the development of cultures, societies, and nations?

C. Economics, Innovation, and Technology

- How can individuals, groups, and societies apply economic reasoning to make difficult choices about scarce resources? What are the possible consequences of these decisions for individuals, groups, and societies?

- How have scientific and technological developments over the course of history changed the way people live and economies and governments function?

D. History, Culture, and Perspectives

- How do our interpretations of past events inform our understanding of cause and effect, and continuity and change, and how do they influence our beliefs and decisions about current public policy issues?
- How can the study of multiple perspectives, beliefs systems, and cultures provide a context for understanding and challenging public actions and decisions in a diverse and interdependent world?

Unit 1: Culture

Essential Questions	Instructional Objectives/ Skills and Benchmarks (CPIs)	Activities	Assessments
<p>How do we live together?</p> <p>Why do groups have rules?</p> <p>Why do people vote?</p> <p>NJSLS-SS 6.1, 6.2, 6.3</p>	<ul style="list-style-type: none"> Understand we belong to various groups, and that those groups have rules to help us get along. Understand that we all belong to communities. The people of the community vote on the laws. Understand that there are three kinds of communities- urban, suburban, and rural- and how they are different from each other 	<ul style="list-style-type: none"> Have students make a list of all the groups at home, at school, in the community, and elsewhere to which they belong. Create a class list on the board. On index cards, write different situations in which a person might be a good citizen. Divide the class into groups giving each group a card. Invite them to discuss ways someone could be a good citizen in the situation. Organize students in groups. They will act as tour guides who will lead a tour of a city and suburb making a list of tour highlights. 	<ul style="list-style-type: none"> End of Unit Test Mid unit quizzes Performance Assessments

Essential Questions	Instructional Objectives/ Skills and Benchmarks (CPIs)	Activities	Assessments
<p>How are people different and how do those differences make us special?</p> <p>(NJSA 18A:35-28 Holocaust/Genocide) The Amistad Bill (A1301)</p>	<ul style="list-style-type: none"> Understand that special ways of doing things make up customs, traditions, and culture. Understand that many different types of people make up a community. Understand that each one of us is unique and special. 	<ul style="list-style-type: none"> Give students copies of the lyrics to the song "Tradition" from <i>Fiddler on the Roof</i>. Read each stanza with the students discussing what the lyrics say about the traditional roles of each family member. With the class, make a list famous artists, inventors, scientists, and musicians. Discuss how these people make communities better places to live ReadWorks.org ReadWorksDigital.org Flocabulary.com Brainpop.com Teachertube.com http://www.njamistadcurriculum.net/ 	

Unit 2: Geography

Essential Questions	Instructional Objectives/ Skills and Benchmarks (CPIs)	Activities	Assessments
<p>How do we find out about places on Earth?</p> <p>Why is it important to understand location?</p> <p>How can we save natural resources?</p> <p>NJSLS-SS 6.2, 6.3</p>	<ul style="list-style-type: none"> • Understand that location is how we describe where places and things are. • Identify the connections between state, country, continent, and the world. 	<ul style="list-style-type: none"> • Have students illustrate their bedrooms on a given grid. Discuss the location of specific items using words such as 'near' and 'next to'. • Have students sketch an outline of their state. Brainstorm with the students the types of information they should put on their maps (cities, bodies of water, etc.) Using books and materials have students make their maps including as many items as possible. 	<ul style="list-style-type: none"> • End of Unit Test • Mid unit quizzes • Performance Assessments

Essential Questions	Instructional Objectives/ Skills and Benchmarks (CP/s)	Activities	Assessments
	<ul style="list-style-type: none"> • Identify the differences between landforms and different bodies of water in the United States. • Understand the features of the four seasons. Identify different types of dangerous weather. • Understand that natural resources are things that occur in nature that we use. Identify examples of resources that can be easily replaced and ones that cannot. 	<ul style="list-style-type: none"> • Post a large outline map of the United States. Have students locate as many land and water forms in the United States as they can. • Using page 29 as a guide, invite students to divide a piece of paper into fourths and draw the picture of each tree. Then have them illustrate themselves under each tree participating in an activity for that season. Students should include as many details as they can. • Using books and other materials, help children find out what state agency is in charge of natural resources • ReadWorks.org

Social Studies Skills Table

Essential Question: What are effective strategies for accessing various sources of information and historical evidence, determining their validity, and using them to solve a problem or find a solution to a public policy question?

Social Studies Skill	K-4
Chronological Thinking	Place key historical events and people in historical eras using timelines.
	Explain how the present is connected to the past.
Spatial Thinking	Determine locations of places and interpret information available on maps and globes.
	Use thematic maps and other geographic representations to obtain, describe, and compare spatial patterns and information about people, places, regions, and environments.
Critical Thinking	Distinguish fact from fiction.
	Identify and interpret a variety of primary and secondary sources for reconstructing the past (i.e., documents, letters, diaries, maps, photos, etc.)
Presentational Skills	Use evidence to support an idea in a digital, oral and/ written format.
	Share information about a topic in an organized manner (e.g., provide a coherent line of reasoning with supporting/relevant details) speaking clearly and at an appropriate pace.

New Jersey Student Learning Standards-Social Studies

6.1 U.S. History: America in the World All students will acquire the knowledge and skills to think analytically about how past and present interactions of people, cultures, and the environment shape the American heritage. Such knowledge and skills enable students to make informed decisions that reflect fundamental rights and core democratic values as productive citizens in local, national, and global communities.

6.2 World History/Global Studies All students will acquire the knowledge and skills to think analytically and systematically about how past interactions of people, cultures, and the environment affect issues across time and cultures. Such knowledge and skills enable students to make informed decisions as socially and ethically responsible world citizens in the 21st century.

6.3 Active Citizenship in the 21st Century All students will acquire the skills needed to be active, informed citizens who value diversity and promote cultural understanding by working collaboratively to address the challenges that are inherent in living in an interconnected world.
