The board shall consider the totality of information and documentation offered by an applicant and may accept other forms of documentation or information presented by a person seeking to enroll a student.

The board shall not require or request any information or document protected from disclosure by law or pertaining to criteria that are not legitimate bases for determining eligibility to attend school.

Transfers Into Grades Two through 12

Pupils transferring into the district are expected to present copies of records from the previously attended school (or district) to aid in placement. Also required are proof of immunizations and proof of identity.

Within the time prescribed by law, the chief school administrator shall request in writing from the school or district of previous attendance, the pupil's records.

Initial placement shall be made on the basis of the records, but adjustment may be made at the discretion of the administration when the state-mandated assessment indicates that such adjustments would be beneficial to the child. Parents/guardians shall be informed of this policy on registration.

Affidavit Pupils

When there is any doubt as to whether a child is entitled to free public education in the district schools, all procedures of law and code shall be followed.

Nonresidents

The district is obliged to educate children of appropriate age residing in the district. The mere owning of any property whatsoever does not qualify a parent/guardian to send children to school in this school district. See policy 5118 Nonresidents.

Students Returning from County Detention

The district shall accept all days of attendance and courses studied by a student at a county juvenile detention center and apply them toward district requirements for elementary, middle or high school graduation.

appropriate public education, including a public preschool education, as provided to other children and youths of this district. Homeless children and youths shall also have access to the education and other services that they need to ensure they have an opportunity to meet achievement standards of the New Jersey Student Learning Standards to which all students are held.

The homeless liaison will provide any assistance necessary and requested for the prompt enrollment of the student. The district will determine the educational placement of homeless students in each child's best interest and respond to appeals concerning them made by parents/guardians or other parties in accordance with New Jersey statutes and administrative code, as well as, pertinent federal law.

The chief school administrator or his or her designee shall ensure that the parent/guardian or adult student is given written notice, at the time the child or youth seeks enrollment in the school, and at least twice annually while the child or youth is enrolled, that describes the general rights provided under the McKinney-Vento Homeless Assistance Act and specifically states the choice of schools the children and youths are eligible to attend. This notice must be signed by the parent/guardian.

ADMISSION

Mandated:

N.J.A.C. 6A:22-2.1 requires written policies and procedures incorporating the requirements described in that subchapter of code on student entitlement to attend school based on domicile or residency in the district. Copies shall be made available to parents and the public. Boards are admonished to construe the provisions of the code liberally to ensure student rights to a free public education.

Other Reasons:

It is advisable to have a policy stating the cut-off date for age for admission to kindergarten and first grade; provisions for accepting underage transfers; dealing with affidavit pupils; and addressing homelessness. Plyler v. Doe prohibits public schools from denying undocumented children and young adults the same right to attend free public elementary and secondary schools as their U.S. citizen and permanent resident counterparts.

N.J.A.C. 6A:17-1.1 et seq. outlines procedures to ensure that homeless children and students placed in state facilities receive a thorough and efficient education.

N.J.A.C. 6A:22-4.1 requires the board to provide sufficient registration forms and trained registration staff to ensure prompt determination of eligibility and enrollment. A clearly identified district-level administrator appointed by the chief school administrator must be available to assist persons who are experiencing difficulties with the enrollment process.

The federal Every Student Succeeds Act has further requirements to promote the educational stability of homeless children and youths and to prevent homeless students from being denied admission to district schools, stigmatized or segregated in any way from the general school population. Guidance published by the USDOE describes required services to homeless children and youths pursuant to the McKinney-Vento Homeless Assistance Act including:

- A. Each child of a homeless individual and each homeless youth shall have equal access to the same free, appropriate public education, including a public preschool education, as provided to other children and youths;
- B. Homeless children cannot be segregated in a separate school program based solely on their homelessness;
- C. Homeless children and youths should have access to the education and other services that they need to ensure they have an opportunity to meet the same challenging State student academic achievement standards to which all students are held;
- D. Schools shall provide the parent/guardian with written notice, at the time any child or youth seeks enrollment in the school, and at least twice annually while the child or youth is enrolled in the school, that describes the general rights provided under the McKinney-Vento Homeless Assistance Act and specifically states the choice of schools homeless children and youths are eligible to attend, This notice must be signed by the parent/guardian;
- E. Schools must immediately enroll homeless students and promptly provided necessary services including

transportation, even if the students are unable to produce the records normally required of non-homeless students for enrollment;

- F. At the request of parents/guardians, districts must ensure transportation for homeless students to and from the school they attended prior to becoming homeless;
- G. Districts must designate a local liaison for homeless children and youths.

N.J.S.A. 18A:7C-12 requires district schools to accept all days of attendance and courses studied by a student at a county juvenile detention center and apply them toward district requirements for elementary, middle or high school graduation.

Recommendation:

A policy as above. Should also address age of admission and residence requirements, physical examinations, proof of immunization, transfer of records and verification of identity of transfer students.

If the board wishes to make provision for screening underage applicants at parental request, it should be addressed here. Clear policy in this area can prevent much ill feeling in the community:
