

TOWNSHIP OF UNION PUBLIC SCHOOLS

Comprehensive Health Education Grade 12

August 20, 2019

Mission Statement

The mission of the Township of Union Public Schools is to build on the foundations of honesty, excellence, integrity, strong family, and community partnerships. We promote a supportive learning environment where every student is challenged, inspired, empowered, and respected as diverse learners. Through cultivation of students' intellectual curiosity, skills and knowledge, our students can achieve academically and socially, and contribute as responsible and productive citizens of our global community.

Philosophy Statement

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

Course Description

Health 401 is a nine-week course, required during the student's senior year. The curriculum focuses on sexual healthcare to promote and maintain a state of wellness throughout one's life.

Students will learn about the need to share simple daily life events with someone else. The importance of talking about problems and voicing their opinions with others they are close with. Loving, close relationships with family and friends are extremely important. During their senior year students will look at relationships from dating through commitment and marriage.

Approximately 82 percent of teen pregnancies are unintended. Students will learn how people can prevent pregnancy. They will also learn that the choice of birth control method can dramatically affect the risk of acquiring a STD's and HIV as well. The responsibilities of pregnancy and parenting, as well as the female and male reproductive system will be covered during the students' senior year.

Students will be provided with an understanding of the physical, emotional and social aspects of human relationships and sexuality and how they support a healthy, active lifestyle.

Early detection and treatment are the key factors in determining many lifestyle diseases. Students will learn the importance of breast self-exams and testicular self-exams.

Students will use computer applications to gather and organize information. Within all content areas, students should utilize computer and information literacy, which supports competency in information-gathering, information-organizing and problem solving.
