# **Course Description**

The World History course is intended to introduce and orient incoming freshmen to all levels to Union High School's Social Studies Program. In the tradition of academic excellence at Union High School, it meets all New Jersey Student Learning Standards. The curriculum will cover the political, social, economic, and cultural history of all regions throughout the world from the 1400's to the present.

In addition to providing the necessary content coverage, the course focuses heavily on fostering social studies skills. These include analysis, critical evaluation, cooperation, and cause and effect. There will be a special focus on writing, including both thematic and document-based essays, involving interpretive reading and research simulation, following the NJSLA criteria.

Instruction will emphasize the application of higher order thinking skills as well as the analyses and investigation of issues and events essential to the various time periods. Primary source documents, individual and group research, as well as selected pieces of art, music and literature will supplement the core material. Students who successfully complete the class will come away with recurring themes that are seen in history, information pertinent to the time period, as well as critical skills in analysis, listening, problem solving and communication.
