**Proposal:** (Simple Statement Regarding club/organization)

To create a club where students who feel that they are not reaching their full potential socially or with regard to self-confidence can come together.

**Summary:** (Summarize how the club/organization will operate, and the target membership.)

We will meet weekly and have structured presentations that students will create on chosen topics relating to social skills. 5 students have been actively involved in the planning of this group, signs will be posted to recruit up to 20 for this inaugural year.

**Goals:** (What are the intended goals and objectives of the club/organization? How does the club/organization support Union High School's mission? What will students learn from the club/organization? What fundraisers is this club/organization planning to organize?)

Students will meet new peers, feel included, and improve interactions with others. Students will gain more self-confidence and feel a sense of support given that all members have the same social skills goals. Topics of discussion will include

communication, self-awareness, resources to utilize inside and outside of the school. Students will learn more about their own strengths and areas of growth and learn to help each other. This supports UHS's mission by promoting inclusivity, self-worth, and community. Fundraising has not been planned yet.

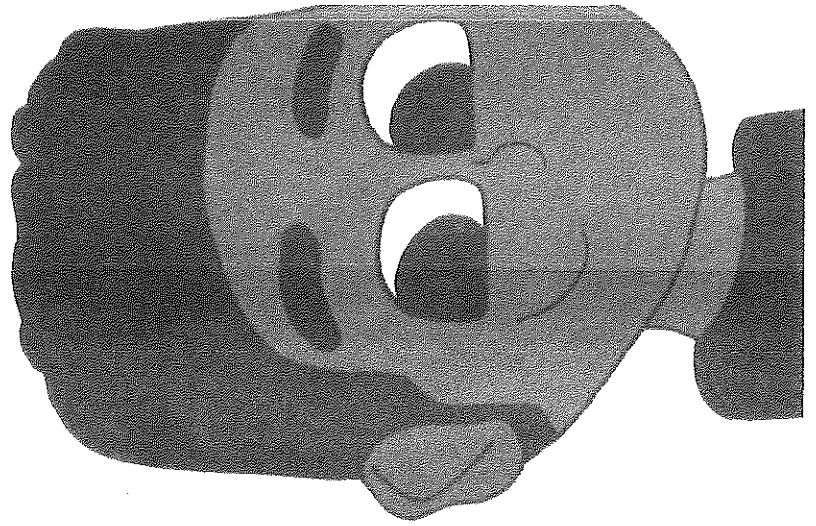

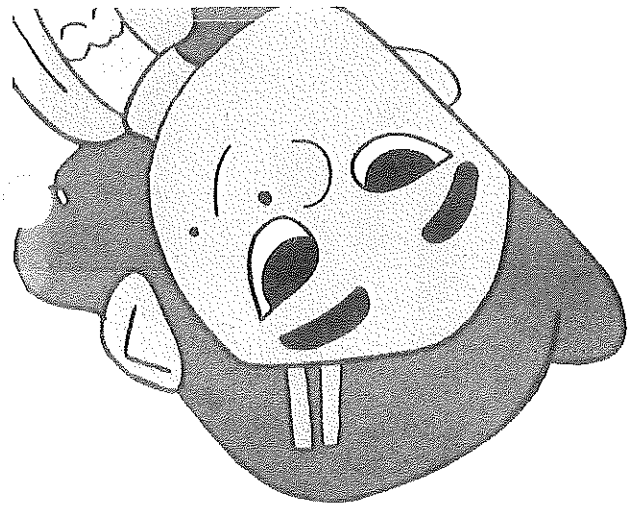

**Conclusion:**

This club will be a great addition to Union High School as it will provide a new outlet for students who want to connect and/or improve their social skills. This club will be welcoming to all and provide a community of support.
