Vision Statement

The arts are a critical and essential part of the education of every young person in America, and every American should have high-quality opportunities to be educated in all of the arts. Such an education should occur both in and out of classroom settings as part of an ongoing learning process for all individuals, including those with special talents or needs.

A comprehensive arts education draws upon the expertise of both arts specialists and classroom teachers, and upon the experiences and resources of professional artists and community cultural resources. Only by utilizing all of these resources can individuals achieve the full educational potential of the arts.

Mission Statement

The Township of Union Department of Visual and Performing Arts is committed to increasing opportunities for all students K-12 to participate in and understand the arts.

We all share the common belief that the arts are one of humanity's most eloquent means of understanding the world. Through the arts, we share the highest achievements of every culture and find a universal language which permits communication among all peoples. As such, the arts are an essential component of a complete education.

Through the years, studies have discovered that the inclusion of the performing arts in a broad-based curriculum improves the quality of a child's educational experience. The arts teach discipline, improve self-esteem, inspire creativity, and help young people to set and reach goals. Knowledge of the arts makes our district a challenging place where our children are encouraged to explore, to create, and to reach their full potential.

Statement of District Goals

- **Develop reading, writing, speaking, listening, and mathematical skills.**
- **Develop a pride in work and a feeling of self-worth, self-reliance, and self discipline.**
- **Acquire and use the skills and habits involved in critical and constructive thinking.**
- **Develop a code of behavior based on moral and ethical principals.**
- **Work with others cooperatively.**
- **Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.**
- **Acquire a knowledge and understanding of the physical and biological sciences.**
- **Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.**
- **Appreciate and understand literature, art, music, and other cultural activities.**
- **Develop an understanding of the historical and cultural heritage.**
- **Develop a concern for the proper use and/or preservation of natural resources.**
- **Develop basic skills in sports and other forms of recreation.**

Course Description

Elementary School orchestra is designed to guide the young musician through a musical training and musical literacy program. Orchestra is a full year course that meets twice per week for students in grade five. Orchestra involves a progressive course of study in the fundamentals of music, instrumental technique, and performance.

Through a varied repertoire, students will explore their musical potential as well as develop their musical vocabulary and general music theory.

The listed materials should be used as guidelines and are subject to the individual instructor. This course is outlined according to the New Jersey Core Curriculum Standards for visual and performing arts.

Recommended Textbooks

Essential Elements for Orchestra

Play – a – long CD (available)

Course Proficiencies
