**UNIT PLANS**

All teachers are required to maintain and use the updated curriculum guide for preparation of unit plans for each subject taught. Unit plans must include the Student Learning Standards (SLS), Cumulative Progress Indicators (CPI), which supports student learning upon completion of the unit. Unit plans should be prepared in enough details to enable a substitute teacher to carry on the program in the absence of the teacher. Unit plans must include New Jersey Student Learning Standards for all subject areas, essential questions, interdisciplinary integration, and formative and summative assessments. Unit plans must also identify differentiated instruction strategies, tiered groups, learning stations, integration of technology, educational resources, critical knowledge and skills, supplementary resources, textbooks and writing tasks.

When the teacher plans to use materials not included in the curriculum guide, he/she should list these materials in the unit plan.

The building principal, vice principal or supervisor may request unit plans periodically throughout the unit.
