Dear Union Township Board of Education:

As requested, I am sending information about my ability to act as a potential psychiatric consultant for your school district. I am also including a copy of my license and my W-9. I do not possess a Business Registration Certificate.

A typical full psychiatric evaluation including report preparation is charged at \$900.00. This report would document five axes of diagnoses, pertinent positive and negative symptoms supporting those diagnoses as well as documentation of the absence of any other major psychiatric diagnoses. Recommendations regarding psychiatric, psychological or academic accommodations would be provided. There would also be documentation, when necessary, of psychiatric history, medical history, family history or social history if it impacts on the diagnosis or recommendations.

A typical school clearance evaluation including report preparation is charged at \$450.00. This would include some documentation of diagnoses and possible recommendations regarding any need for continued treatment.

If the school district would like to schedule an evaluation, the best procedure is to have the school contact me by telephone with some details of what they need and I can then provide you with potential available appointment times.

Please feel free to contact me if you require any additional information.

Sincerely,

Richard Michael Di Turi, M.D.
