**Cycle:** Amendment 4

ARP Safe Return Plan ▾

**Project Period:** 9/1/2021 - 8/31/2022

### Safe Return Plan Updated

Safe Return Plan text and assurances must be agreed to every six months.

Date Plan Updated:

Describe how the LEA will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health, and other needs, which may include student health and food services. ([count] of 1000 maximum characters used)

The Township of Union Public Schools will ensure continuity of services in several ways each school year. The school district will leverage federal funding made available to expand academic and enrichment opportunities for the 2023-2024 school year. Teachers will differentiate instruction to address student's specific learning gaps. Faculty will be responsible for integrating activities that emphasize social and emotional well-being. Academic needs of students will continue to be assessed using diagnostic and formative assessments and supportive programs and resources such as but not limited to after school programs, summer programs, enrichment classes, intervention programs, counseling, tutoring etc.

Describe how the LEA sought public comment on its plan, and how it took those public comment into account in the development of its plan. ([count] of 1000 maximum characters used)

The Township of Union Public Schools requested public comment prior to the development of the Safe Return Plan. The district has developed and updated the Emergency virtual Instruction program Policy 2023-2024 and the Township of Union Public School District Checklist for ER Preparedness Plan 2023-2024. Both of these documents are updated each school year based on the comprehensive needs assessment. The documents and policies can be found on the Township of Union Public School website for all parents and guardians to view along with the distribution to stakeholders. The Safe Return Plan will be updated every six months and a feedback survey will be disseminated.

Describe how the LEA ensured that the plan is in an understandable and uniform format; is to the extent practicable written in a language that parents can understand or, if not practicable to provide written translations to a parent with limited English proficiency, will be orally translated for such a parent; and upon request by a parent who is an individual with a disability as defined by the ADA, will be provided in an alternative format accessible to that parent. ([count] of 1000 maximum characters used)

All documentation regarding the Safe Return Plan is provided to the stakeholders, staff and families via the district website and various social media outlets. The district website contains a translation feature in the form of numerous languages to accommodate all families. In addition, a translation (oral or written) or alternative format (video or audio) may be provided upon the request if a parent with limited English proficiency and/or individual with a disability defined by the ADA requests such. All requests should be made to the respective building principal.

Briefly describe any guidance, professional learning, and technical assistance opportunities the LEA will make available to its schools. ([count] of 1000 maximum characters used)

The Township of Union Public Schools will continue to provide support to all students, families and staff members to successfully implement technology. The district provided 1:1 technology to enhance instruction within all grade levels. The school district technology department coordinates ongoing professional development trainings throughout the school year for staff, students and families. The professional development provides information on various instructional technology platforms and strategies. In addition, EDCamps and professional development are coordinated within the district to all staff members throughout various external educational consultants.

Provide current link to the district's website where the plan is posted.

By checking this box and saving the page, the applicant hereby certifies that they will assure that the information contained in the Safe Return to School plans will be updated within this system every 6 months during this grant project period.
