Ms. Yvonne Lorenzo
Supervisor
Union High School
Union, NJ 07083

Dear Ms. Lorenzo:

It was a pleasure talking to you the other day. I left a message with the principal as I have two industrial sewing machines I no longer use. In addition to teaching Fashion Design at Irvington High School I also worked part time designing handbags for Mina Handbags. I purchased two industrial machines for my own use, I no longer use them, and they are like brand new.

One is a Juki "walking foot" heavy duty, originally \$2,000 and the other is a Singer 20u, that was purchased for \$1,000. I am also including many attachments, needles, bobbins, and tools needed to adjust the machines. They were treated with love and only used for a few years, are in working condition, and just need to be oiled.

I have a soft spot in my heart for sewing and teaching students about Fashion Design and am glad to help. I will probably be able to donate some fabric and notions at another time. I will feel gratified that my machines will continue to assist students with their education.

Yours truly,

Lynda J. Dean
