

Nursing Service Plan for Union Board of Education

Optimal learning requires good health. The Certified School Nurse in the Union Public School System provides a vital component in students' primary and preventative health care. In an ongoing effort to insure children remain healthy and ready to learn, the school nurse must take on many roles.

School nurses often take the lead in early detection and correction of health problems through screenings, health assessment, and emergency care. They are often the liaison between education and healthcare, and provide a link/resource between school, home, and community.

The Certified School Nurse acts as an advocate for the children. With collaboration from both the physician and student's family, Individual Health Care Plans and Emergency Care Plans are developed for each student with acute or chronic health concerns. The nurse continually uses the nursing process to deliver optimum level of care.

The school nurse acts as both a communicator and investigator on a daily basis seeking information regarding health history, health practices, environmental concerns, safety issues, communicable disease patterns, and current health information relevant to the practice of school nursing broadly or as applied to an individual student/staff member. The nurse also acts as communicator/consultant to parents/guardians, pediatricians, specialists, health agencies, teachers, and custodial staff.

Education and counseling are vital roles of the Certified School Nurse. Along with formal classroom teaching, Union School Nurses distribute information through staff meetings, videos, and written information to both staff and children's families. Informal teaching takes place continuously on a one-to-one basis during the delivery of nursing care to both staff and students.

A time consuming role for school nurses is the role of recorder. A legal record is maintained for each student, and documentation of nursing care is required. Communication from parents and health care providers is also incorporated into the students' records. Data must also be collected and recorded for state agencies related to immunizations, tuberculosis testing, blood-borne pathogens, student/staff injuries, and sports physicals. The school nurse communicates required information through letters, phone calls, and conferences.

Managing the variety of roles and prioritizing care are crucial to school nursing. The school nurses at Union Public Schools are the key link between health and education services.

Emergency Care of Accidents or Illness at School

The School Nurse:

- Assists in setting up policies for caring for students who are injured or who become ill at school.
- Renders nursing care to injured or ill students and contacts parents about injuries requiring immediate medical attention. If parent or guardian is not available in an emergency, contact family designee or physician. Call ambulance when necessary.
- Renders nursing care to injured or ill school employees.

Emergency Management (N.J.A.C. 6A 16-2.1 (B) 2 (iii))

A. Acute Care Management Plan:

1. Creation and maintenance of an Emergency Management Kit for utilization in crisis, emergency evacuations, or situations.
2. Cardiac or Respiratory Distress Action Plan
 - a. AED's (Automatic External Defibrillators) deployment and delegates trained
 - b. CPR trained school nurse (N.J.A.C. 6A:13.3)
 - c. Universal precautions trained staff
 - d. CPR trained coaches/athletic trainers/teachers/staff
3. Concussion training for staff and management or current in-service certificates for coaches, physical education teachers, nurses.

B. IHP/Chronic Care Management Plans:

1. Epinephrine Auto Injector/Anaphylaxis Action Plan
2. Asthma Action Plan
3. Asthma Nebulizer Trained Nurses
4. Diabetic Action Plan-Glucagon
5. Lock Down Health Care Action Plan

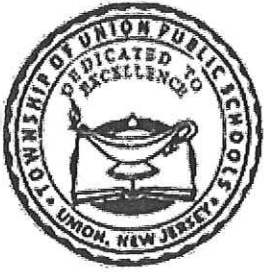

C. School Nurses are members of the Crisis Response Team.

D. Community Rescue Squad and Emergency Paramedic Services

1. Local rescue squad is available in the Township. Daytime emergency services and transport will be contacted when necessary.

E. Nursing Services Provided to Non-Public Schools pursuant to N.J.A.C. 6A:16-25

1. Union Township provides services through a contractual agreement with Union County Education Service.
